Product description

1:72/ 1:48/ 1:32

# F 104G - ZELL

---

## **Produktinformationen:**

- the kits were/are created in cooperation with Thomas Mohr and the Lechfeld Military History Collection

- Three products are planned:

1. launch frame (available to order from 16.09.2024)
2. rocket launch (in progress)
3. jacked up (in progress)

- Three scales will be available 1:72,1:48,1:32

# Launch pad

## General information:

- the starting frame includes all components for the conversion to a ZELL Starfighter.
- Additional material is required in the form of brass wire and polystyrene rods to connect or complete components.
- Sub-assembly 5 (thrust ditch/base) is offered separately to make the kit as cost-effective as possible.

# Launch pad

---

## **Kit contents:**

-all the parts required for a launch pad (without base) (assembly 1,2,3,4,5,6,7 - only in 1:48,8-only in 1:72,1:48 scale)

-a decal set for the representation of the early machine from Edwards (1963) and the later machine used in Lechfeld in 1966

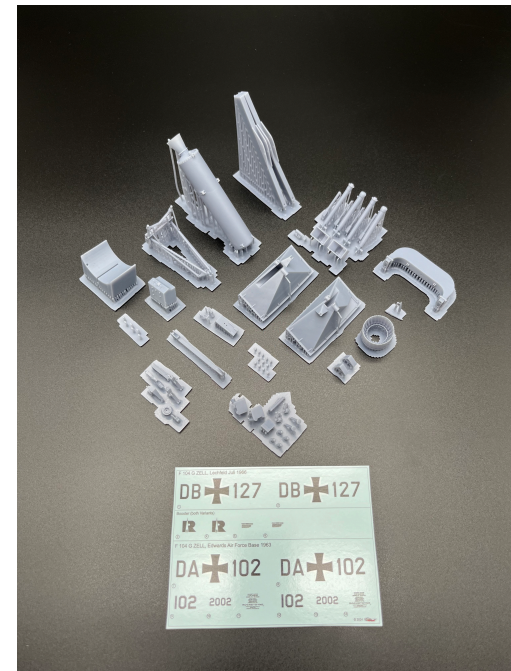

-a building instruction as download
